

## Silver Jewellery - Intermediate

**Tutor:** Josh Chandler Morris

**Dates:** Wednesday 09/09/26– 02/12/26 (excluding 28/10/26)

**Times:** 10:00 – 12:30

12 weeks

This course is suitable for all those with some experience of silver jewellery making and aims to build on the fundamental skills such as soldering, filing, forming and finishing. You will be able to work on your own individual projects, or choose from a range of set projects, and the tutor will be on hand to guide and develop your learning and understanding of silver jewellery making in a relaxed atmosphere.

### Information on how the course will be taught:

- Demonstrations to the group will be used to explain use of materials and techniques
- A series of projects will guide you through the different techniques
- Presentation and discussion of examples
- Some techniques will be practiced in copper/base metal (where appropriate) before making the final piece in silver
- You will be able to practice techniques at your own pace and apply these to create your own designs

### Please bring the following to each class:

- If you have your own tools, please bring these with you. If you don't have any tools, we will be able to supply some basic tools to get you started. Further information on which tools to bring and where to source them will be given on the first lesson, so that you will be ready for subsequent lessons
- Consumables such as flux, a small amount of solder, emery paper and polish will be included in the cost of the course
- you will be provided with a materials list on the first lesson
- Bench pegs are supplied, however where possible it is advisable to bring your own
- A notebook/sketch book and pencil to take notes and record design development
- Remember to bring glasses with you if you need them
- A camera (or phone with a camera) is useful to capture photos of your work

### Course content:

- This course aims to help you to develop confidence, improve and build on existing skills and realize your potential
- You will be shown how to use a variety of materials and methods to make silver jewellery and apply these to create a variety of projects
- You will practice skills such as soldering, filing, forming, finishing.
- You will be able to use these techniques to work on your own projects, with regular feedback and advice from the tutor
- You will refer to other artists work for inspiration

### Additional Information;

Tea, coffee and biscuits are available in the kitchen area, for a small charge.

### About the tutor;

Josh started making jewellery 11 years ago. After taking lessons with local silversmiths, he built a studio in the spare room of his flat and began soldering and hammering long into the night.

He now runs Harsh Realm Jewellery, making one-off, gemstone-centred pieces inspired by literature, philosophy and the great outdoors.

When not in the workshop, Josh also loves music and has been lucky enough to make jewellery for many of his favourite artists, including the likes of Nikki Lane and Courtney Marie Andrews, who wore her Harsh Realm bracelet on the cover of her Grammy-nominated album 'Old Flowers'.
